AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Secretary of the Interior proposes to withdraw approximately 605,350 acres of Federal lands and minerals to protect the native biodiversity and the ecological richness of the Shivwits Plateau area in northwestern Arizona. The mineralization of the area is known to contain uranium and copper. The proposal, if finalized, would withdraw the following described Federal lands and minerals from location and entry under the general land laws, including the mining laws, but not the mineral leasing laws, subject to valid existing rights.
